Silk Road Takedown

In May 2015, Ross Ulbricht was convicted and sentenced for life term.....

Summary

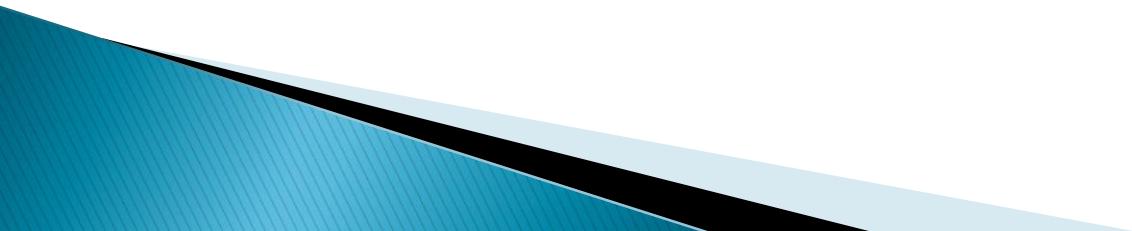

I love learning and using theoretical constructs to better understand the world around me. Naturally therefore, I studied physics in college and worked as a research scientist for five years. I published my findings in peer reviewed journals five times over that period, first on organic solar cells and then on EuO thin-film crystals. My goal during this period of my life was simply to expand the frontier of human knowledge.

Now, my goals have shifted. I want to use economic theory as a means to abolish the use of coercion and aggression amongst mankind. Just as slavery has been abolished most everywhere, I believe violence, coercion and all forms of force by one person over another can come to an end. The most widespread and systemic use of force is amongst institutions and governments, so this is my current point of effort. The best way to change a government is to change the minds of the governed, however To that end, I am creating an economic simulation to give people a first-hand experience of what it would be like to live in a world without the systemic use of force.

IS moves to Darknet

Screenshot of a darkweb discovered a few days back after Paris Attack

The screenshot shows a dark-themed website for the Islamic State (IS). At the top left is a grayscale world map with a bright light source over Europe. Next to it is the IS flag logo. The main title "إصدارات الدولة الإسلامية" (Publications of the Islamic State) is displayed prominently in gold Arabic script. Below the title is a banner containing the text "موقع غير رسمي لعرض إصدارات الدولة الإسلامية" (Non-official website to display publications of the Islamic State). A navigation bar at the bottom includes links for "المزيد" (More), "وكالة أعماق" (Deep Media Agency), "التقارير المصورة" (Video Reports), "المكاتب الإعلامية للولايات" (Media Offices of the Provinces), "المؤسسات الرسمية" (Official Institutions), and "الصفحة الرئيسية" (Home Page). On the left side, there is a search bar with the placeholder "ابحث ..." and a link to "أحدث إصدارات المؤسسات الرسمية" (Latest publications from official institutions). On the right side, there is a large image of a soldier holding a rifle next to a massive explosion, with the text "إصدارات متميزة" (Special Publications) above it and "الإصدار المرئي المميز" (The most outstanding visual release) and "الرمادي ملحمة الجهاد" (Al-Ramadi: The Epic of Jihad) below it. A small video play button is overlaid on the explosion image.

Read This,

Soon, soon, you will see the wondrous sight, A fierce conflict. And you will see, There will be battles in the heart of your abode. To destroy you, my sword has been sharpened. We have marched by
ght, to cut and slaughter, By the knife of revenge is a road for whoever is suitable, With the specters of night and the young men of terror, And an explosion of woe, that he may be defeated. You have
gun to fight me with the ally of shelter, So taste my curse when it has fired up. You will remain for a while, and you will suffer in my war. With what will you meet a youth made mighty? When the horse
as roamed, raised its head, and leaped forth, Thus it has become a lighted blaze, The bullets blaze, the revenge has come. So where is the escape from the sparks of the mortals? We will come to you
th slaughter and death. With fright and silence we will tear the bonds. You have failed publicly, so taste loss. And return in flight, under cover of night. When disbelief has agitated, frothed, and stirred
, We have filled the roads with red blood. With the darkness of bayonets, with the striking of the necks, To heap up the dogs when they marshal. We have come, we have come, we have marched with

determination. In earnest we have striven to ascend the peaks. We embark on the deaths, we close ranks. We die standing, as lions of courage. **expect us!**
